

# 1 WELCOME

Thank you for taking the time to attend this virtual public exhibition of our proposal for the new residential development on **Land East of Bramford Road, Bramford** (location shown opposite).

The exhibition comprises a series of boards which provide some background information to show you our initial ideas for local infrastructure delivery and new homes on this site.

This exhibition has been organised by Suffolk County Council (Corporate Property) who hope to undertake the development of the land. The purpose of this exhibition is to give you the opportunity to give your views on our initial proposal for the site before a planning application is submitted. We will consider feedback from this exhibition when working up the final planning application documents which will be submitted to Babergh Mid Suffolk Council in the Summer of 2021.

At the current time, whilst it is not possible to undertake face to face consultation events, we are providing you with as many ways to provide feedback and view this presentation as possible. If you would like to comment, the ways to do so can be found on the 'What Happens Next' pages of this consultation.

We have provided a comments form, an email address and a freephone number to enable you to respond to this consultation.

There is a link to a comments form available on this website which we would encourage you to complete to give us your comments. Alternatively, you can leave a message on our Freephone number **0800 464 7596**.
