

1 INTRODUCTION

Thank you for taking the time to view this public exhibition of Suffolk County Council's proposal for residential development on land to the south-east of Back Lane, Copdock and Washbrook (which is proposed for housing in both the emerging Neighbourhood Plan and Babergh Joint Local Plan).

This consultation provides some background information to show you our initial ideas in terms of how this emerging site allocation can be delivered (including information relating to preliminary access, layout, and design). The location of the site is shown opposite (outlined in red).

The purpose of this consultation is to give you the opportunity to give your views on our initial proposal before a planning application is submitted. We will consider feedback from this consultation when working up the final planning application documents, which will be submitted to the local planning authority (Babergh District Council).

This document provides a summary of the proposal and is supported by a 'Frequently Asked Questions' (FAQs) page on this website with further information. Details of how to provide feedback is at the end of this presentation.
