

1 INTRODUCTION

Thank you for taking the time to view this public consultation of Helena Romanes School's proposals for securing a brighter future for its pupils and the children of Great Dunmow.

The consultation document provides some background information to show you our initial ideas for a new school on land at Buttley's Lane, Great Dunmow and the residential redevelopment of the existing Helena Romanes School, Parsonage Downs, Dunmow. The location of both sites are shown opposite.

The purpose of this consultation is to give you the opportunity to give your views on our initial proposals before our planning applications are submitted. We will consider feedback from this consultation when working up the final planning application documents, which will be submitted to both the local and county planning authority.

This document provides a summary of the proposals and is supported by a Frequently Asked Questions page on this website with further information. Details of how to provide feedback is at the end of this document.
